## Professional Summary

Detail-oriented and results-driven Python Full-Stack Developer with hands-on experience building responsive, scalable web applications using Python, Django, React.js, JavaScript, HTML5, CSS3, REST APIs, and MySQL. Strong understanding of backend development, API integration, database design, CRUD operations, authentication, and responsive UI development, with the ability to troubleshoot issues and write clean, maintainable code. Proactive and adaptable, seeking an opportunity to contribute to a dynamic software development team and deliver reliable solutions.

## Technical Skills

**Programming Languages:** Python (Core & Advanced – OOP, Design Patterns), Async Python, JavaScript (ES6+), TypeScript, Bash/Shell Scripting, SQL

**Frontend Technologies:** React, TypeScript, HTML5, CSS3, Tailwind, Responsive Web Design, Component-Driven UI Development

**Backend Technologies:** Django, Django REST Framework (DRF), REST APIs, Authentication, Authorization, FastAPI, Flask, REST API Design

**Database:** PostgreSQL, MySQL, SQLite, Django ORM, Data Modeling, Query Optimization

**Tools & Platforms :** Git, GitHub, Docker, VS Code, Postman, MySQL Workbench

**Architecture & Best Practices :** System Design, OAuth 2.0, JWT Authentication, RBAC, Secure Coding Practices, Coding Standards, Code Reviews, Debugging, Mentoring Developers

## Internship Experience

### Besant Technologies | Python Full Stack Developer Intern

Mar 2026 – Aug 2026

- Developed responsive web applications using Python, Django, React.js, JavaScript, HTML5, CSS3, and MySQL.
- Built and integrated REST APIs, implemented database operations, resolved bugs, and contributed to application development.
- Collaborated with the development team to translate requirements into functional and maintainable web solutions.

### WHY Global Services | Frontend Developer Intern

June 2025 – Sept 2025

- Developed responsive and user-friendly web interfaces using HTML5, CSS3, and JavaScript.
- Contributed to real-time website development and UI design, developing responsive layouts and improving user experience while collaborating with the team on frontend tasks.

## Projects

### Maternal Health Tracker - IoT Healthcare Monitoring System

GitHub Repository

- Developed an IoT-based maternal healthcare monitoring system using ESP32 and React Native.
- Implemented real-time health tracking, fall detection, and emergency alert features.
- Integrated REST APIs, Bluetooth communication, and MySQL database connectivity.
- Technologies Used: React Native, Spring Boot, MySQL, ESP32, Arduino IDE, REST API, BLE, Git, GitHub, VS Code, Sensor, IoT

### Cab Booking System (Rapido Clone) | Django, Mysql

GitHub Repository

- Built a full-stack cab/bike booking web application using Django with OTP-based authentication and role-based authorization for Customers and Drivers.
- Implemented end-to-end ride lifecycle tracking (requested → accepted → started → completed) with REST-style URL routing and a Django admin panel for managing users and rides.
- Technologies Used: Python, Django, Django Authentication, MySQL, HTML5, CSS3, REST API, Git, GitHub, VS Code

### Voice Activated Virtual Assistant | Python, NLP

GitHub Repository

- Developed an AI-powered virtual assistant using Python and NLP.
- Implemented speech recognition, text-to-speech, web search, and application control features.
- Built real-time voice command processing for task automation and improved user interaction.
- Technologies Used: Python, NLP, Speech Recognition, Git, GitHub, VS Code

## Education

### Dhanalakshmi Srinivasan College of Engineering and Technology

Aug 2022 – June 2026

Bachelor of Engineering in Computer Science , CGPA : 8.1/10

## Certification

- AI Foundations Associate – Oracle Cloud Infrastructure: Foundations of AI, ML, and generative AI on OCI.
- Front End Web Developer – Infosys Springboard: Core front-end development with HTML, CSS, and JavaScript.
- Python Essentials 1 – Cisco Networking Academy: Python programming fundamentals and problem-solving.
